PUSHING THE BOUNDARIES

The open-in style of window is very much a European design and is ideal for cleaning from within (in the turn position).

Ideal for high-rise as well as low-rise applications, the tilt and turn window offers a greater scope for larger opening lights than a traditional casement window and the larger panes of glass help its thermal performance.

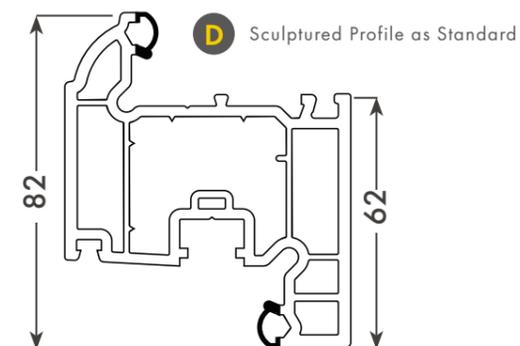

Thermally Efficient created using our uPVC profile

Weatherproof distinctive, patented double-action bubble gasket

Highly Secure with PAS24, Secured By Design and Part Q

Available in chamfered or sculptured profiles

A+ Standards of thermal efficiency

LSW035 - T&T Sash

PERFORMANCE

28mm double and 36mm triple glazing

Sculptured and chamfered suites

U-values from 1.3 (DGU) and 0.9 (TGU)

Patented co-ex gasket

Ideal for fire exits
